

TISG-S-2

New Generation Technologies & Renewable Energy

IERE New Technology Website

Mr. Yoshitaka Tokushita
J-Power, Tokyo, Japan

Keywords : Attractiveness of the IERE Website, Technological Information

Abstract

To increase attractiveness of IERE Activities, the plan which introduces most exciting issues in the field of electricity to all IERE members was proposed in 2007.

When TIS-Asia Steering Committee was established in 2008, this plan started as TIS-Asia-GTC3.

The mission of GTC3 was to collect vivid information of advanced generation technology and share this information among IERE members through IERE Web Site.

After the re-organization of TIS-Asia, GTC3 was renamed as GWG2. GWG2 extended searching category, then focused Renewable Energy. Achievements of GWG2 are available in IERE Web Site.
