<< Guangdong Power Grid Corporation newly joined IERE >>

IERE Central Office is pleased to announce that Guangdong Power Grid Corporation (GPG), China has newly joined IERE as Executive Member from the month of August 2011.

GPG is the largest wholly owned subsidiary of China Southern Power Grid which is one of major power grid holding companies in China. GPG is China's largest provincial power grid and GPG's business is in transmission and distribution areas, including power grid construction and operation, electricity sales and services.

GPG has a supply area of nearly seventy (70) thousand square miles, serving a population of 100 million and over 29 million households and businesses.

The number of employees is 100 thousand. In 2010, the maximum grid load reached 70 gigawatts. GPG has 18 departments in their headquarters and directly manage 21 city-level power supply companies and other companies for dispatch, design, research and so on.
