

# **IERE Pick-up Papers**

## **- Asset management and Maintenance -**

Kreuzschnabel / Wikimedia Commons

**IERE Central Office**

**March 2020**

Picked up presentations related to “Asset management and Maintenance” from IERE GM/Forums and Workshops from the last 3-4 years.

## Contents

1. **On-Line Transformer Oil Purification (May 2017, Vancouver, S4-1)** 1  
Mike Jain, PhD, MBA, PCHEM, Product Manager, Substation Services  
Substation Technology & Testing, Powertech Labs Inc., Canada
2. **Operation Big Data based Failure Probability Assessment for Risk Based Maintenance of Fossil Power Boiler Tube (November 2017, Putrajaya, S3-2)** 18  
Bum-Shin Kim, Principle Researcher, KEPRI, KEPCO, Daejeon, Korea
3. **Effect factors of sandstorm on Power Transmissions in Deserts (November 2017, Putrajaya, S4-1)** 26  
Heming Deng<sup>1</sup>, Wei Cai<sup>1</sup>, Chaohai Zhang<sup>1</sup>, State Grid Electric Power Research Institute, Wuhan, China  
Jian Wang<sup>2</sup>, Yiqian Sun<sup>2</sup>, <sup>2</sup>State Grid Xinjiang Electric Power Company Urumqi, China
4. **A study on detection of distribution facilities deterioration with the active thermography method (November 2017, Putrajaya, S4-8)** 43  
Akimori Matsuo, Electric Power Research and Development Center, Electric Power Group, Chubu Electric Power Co. Inc., Nagoya, Japan
5. **Early Detection and Localization of Thermal Faults from Acoustic Emission Measurement for TNB In-Service Power Transformers (November 2017, Putrajaya, S4-9)** 53  
Dr. Yasmin Hanum Md Thayoob, Senior Engineer, TNB Distribution, Tenaga Nasional Berhad, Malaysia.  
Abu Sufian Abu Bakar, Engineer, QATS, TNB Research Sdn. Bhd., Malaysia.  
Ir. Dr. Mohd Aizam Talib, Technical Expert, Distribution Div. TNB Research Sdn. Bhd., Malaysia.
6. **Design and Implementation of Extensible Framework for Management and Control Information System of Power Grid Maintenance (May 2018, Kyoto, S1-5)** 78  
BAI Yichuan, WU Meng, BSHI Kang, Cao Qi, Luo Liming Deputy General Manager, INFORMATION & COMMUNICATION TECHNOLOGY COMPANY, NARI GROUP CORPORATION, Nanjing, China
7. **Grids and Bits – how DSO’s can profit from innovative data & energy analytics (May 2018, Kyoto, S2-2)** 89  
Dr. Felix Cebulla, Strategy & Technology, innogy SE, Essen, Germany
8. **Estimation of Frequency of Lightning Strokes to Distribution Lines** 97

- Based on An Observation of Lightning Channels (May 2018, Kyoto, S2-3)**  
Kenichi Kanatani, Satoshi Morimatsu, Susumu Matsuura, Kazuo Shinjo  
Hokuriku Electric Power Company, Toyama, Japan
- 9. Application of Wearable Devices for Efficient Maintenance Work of Transmission Lines (May 2018, Kyoto, S3-6)** 104  
Kenichiro YAO, Researcher, Electric Power R&D Center, Chubu Electric Power Co., Inc., Nagoya, Japan
- 10. Research and Trial Application of Mobile Sensing and Interactive Diagnostic Technology for Power Cable Lines (May 2018, Kyoto, S4-3)** 116  
Ouyang Benhong, Director, Power Cable Technology Division, China Electric Power Research Institute, Wuhan, China  
Wang Yuli, R&D Engineer, Power Cable Technology Division, China Electric Power Research Institute, Wuhan, China
- 11. Digital solutions for optimization of asset operation and maintenance: MHPS TOMONI® for power plant operators and MHI ENERGY CLOUD® Service for large energy users (September 2018, Munich, S3-4)** 128  
Michalis Agraniotis<sup>1</sup>, Torsten Buddenberg<sup>1</sup>, Christian Bergins<sup>1</sup>, Emmanouil Kakaras<sup>1</sup>, Satoshi Kokaji<sup>2</sup>, Masayuki Morihara<sup>2</sup>  
<sup>1</sup>Mitsubishi Hitachi Power Systems Europe, Duisburg, Germany  
<sup>2</sup>Mitsubishi Heavy Industries, Tokyo, Japan
- 12. Development on The Optimal Operational Power-Plant's Supporting-System (September 2018, Munich, S4-5)** 140  
Hideyuki ISHIGAMI, General Manager, Thermal Power Business Department, CHUBU Electric Power Co., Inc., Nagoya, Japan  
Motohiro ICHIBA, Tsuyoshi TOUBO, Manager, Thermal Power Business Department, CHUBU Electric Power Co., Inc., Nagoya, Japan  
Tomoya SOMA, Senior Expert, AI Analytics Business Development Division, NEC Co., Tokyo, Japan  
Takazumi KAWAI, Principal Researcher, Security Research Laboratories, NEC Co., Kawasaki, Japan
- 13. Development of Abnormality Detection System for Power Plant Facility (September 2018, Munich, S4-6)** 159  
Jong-Duk Son, Hee-Soo Kim, Ji-Hoon Lee, Seok-Man Sohn, Beom-Soo Kim, Yong-Chae Bae  
Clean Power Generation Laboratory, KEPCO Research Institute, Daejeon, South Korea
- 14. How Gas-To-Liquids (Gtl) Based Technology Can Help To Enhance The** 170

- Reliability Of Transformer (March 2019, Bali, S3-4)**  
Volker Null, Product Application Specialist, SHELL, Germany
15. **Condition Monitoring and Diagnosis of Power Plants using EnergyWin™ (March 2019, Bali, S5-3)** 182  
Eiichi KODA, Deputy Associate vice president, Energy Platform Creation Sector, Energy Engineering Research Laboratory, CRIEPI, Yokosuka, Japan
16. **Electromagnetic Risk Management in Digital Power System (March 2019, Bali, S5-6)** 193  
Prof. Ir. Dr.-Ing. Eko Supriyanto, Senior Consultant to PETRONAS and Head of Electromagnetic Compatibility Laboratory, UNIVERSITI TEKNOLOGI MALAYSIA
17. **Steam Turbine Lifetime Assessment (March 2019, Bali, S5-8)** 215  
Ilham KURNIAWAN, Ops Eng Team Leader, Facility Engineering, Star Energy Geothermal Salak, Ltd, Jakarta, Indonesia  
Diva E. NATAPRAWIRA, Reliability Engineer, Facility Engineering, Star Energy Geothermal Salak, Ltd, Jakarta, Indonesia  
Edi GARNADI, Rotating Equipment Maintenance Coordinator, O&M, Star Energy Geothermal Salak, Ltd, Jakarta, Indonesia
18. **An Instance Segmentation and Depth Perception based Obstacle Detection and Distance Measurement Method on Substation Patrol Robot (October 2019, South Africa, S1-1)** 221  
Hongsheng XU(PhD), Jixiang LU, Zhihong YANG, Tianyu CHEN,  
NARI Group Corporation (State Grid Electric Power Research Institute)  
Nanjing, China
19. **Application and Development of Artificial Intelligence in Power Equipment State Evaluation and Maintenance (October 2019, South Africa, S1-3)** 232  
Qiao Ji, Engineer, Artificial Intelligence Application Research Department, China Electric Power Research Institute, Beijing, China
20. **Asset-Management 4.0 (October 2019, South Africa, S2-1)** 250  
Hans-Jurgen Behnke, POA External Operation & Maintenance, Business Development & Sales, RWE Technology International, Essen, Germany
21. **A Real-world dataset for automatic visual diagnosis of power transmission lines (October 2019, South Africa, S2-2)** 275  
Min-Hee Choi, Nam-Joon Jung, Chan-Uk Lim, Senior Researcher, Digital Solution Lab., KEPCO Research Institute, Daejeon-Si, South Korea
22. **Application of RFID System for Managing Repair Parts of Underground Power Cables and Accessories (October 2019, South** 289

**Africa, S2-3)**

Yuya MANABE, Researcher, Electric Power R&D Center, Chubu Electric Power Co., Inc., Nagoya, Japan

- 23. 4IR technologies Application on KEPCO Power Distribution equipment maintenance (October 2019, South Africa, S2-4) 302**

Gi-Dae Oh, Senior Researcher, Smart Power Distribution Laboratory, KEPCO Research Institute, Daejeon, Republic of KOREA

- 24. High Efficiency Status Evaluation for Main Equipments based on Cyber Physical Systems in Distribution Network (October 2019, South Africa, S2-5) 316**

Keyan Liu, Wanxing Sheng, Xiaoli Meng, Senior Researcher, Power Distribution Department, China Electric Power Research Institute, Beijing, China

- 25. MR\_System Solutions for Asset Management (October 2019, South Africa, S2-7) 330**

Mr. Kobus de Villiers, Managing Director, Reinhausen, South Africa

- 26. The Implementation of Smart Asset Management System to Monitor the Health Index of Power Distribution Assets: Case Study of PLN's EAM in Indonesia (October 2019, South Africa, S4-3) 339**

Dimas Bangun Fiddiansyah<sup>1</sup> and Job Syam<sup>2</sup>, <sup>1</sup>Engineer of Asset Management in T&D, Operation Division, PLN Head Office, <sup>2</sup>Manager of IT Development, IT System Division, PLN Head Office, Jakarta, Indonesia
